**Subject:** Flupyradifurone - an extension of PRIA due date

Good afternoon, Reuben,

Thank you for the discussion this afternoon. BCS agrees to an extension of the PRIA due date for flupyradifurone from October 31, 2014 to **November 26, 2014**. It is critical to have an approved label for Flupyradifurone TC (264-RRUG), Sivanto 200 SL (264-RRUR), and BYI 02960 480 FS (264-RRUE) by or at the renegotiated PRIA due date to allow for a submission of the complete JMPR dossier by the end of November, 2014 for the 2015 scheduled JMPR review of flupyradifurone. This timing would also allow the state registrations in CA and FL to be in place for the 2015 growing seasons. Please let us know if you have any question.

Again, thank you and your colleagues for all of your effort to bring Sivanto to this point of the review and approval process.

Jamin
